

I disapprove entirely the course he has thought proper to pursue, and believe that his delay has been destructive of the best interests of the country.

Let the President see this letter; he, I am sure, will approve the promptness with which I have acted, when he shall be sensible that I have, by the movement I have made, tranquilized the whole Alabama frontier.

With my respectful compliments to Mrs. Blair and your family, yours, most truly,

THOMAS S. JESSUP.

FRANCIS P. BLAIR, Esq., Washington City. Endorsement on the back of the letter—[By the President of the United States.]

Referred to the Secretary of War, that he forthwith order Gen. Scott to this place, in order that an inquiry be had into the unaccountable delay in prosecuting the Creek war, and the failure of the campaign in Florida. Let General Jessup assume the command.

A. J.

When Gen. Scott reached Washington he found that both the President and Secretary of War had left for their respective homes; and being anxious for an immediate investigation of the charges against him, he set out for New York, hoping to reach that city before the Secretary should leave for Detroit. Being disappointed in this he returned to his family near Baltimore, and must now submit, with such patience as he can exercise, to the anxiety naturally caused by the circumstances in which he is placed.

A fellow named Dillon, a "celebrated dentist" who has made a fortune "by his profession" and is living in splendor in the city of N. York with a family, is now claimed, by "a poor, old, and coarse looking Irishman" as her husband. It appears from the testimony adduced by her at the Police Office, to which she had him brought, that he was a common day laborer in Roscomon county, Ireland, where he married the present claimant twenty five years ago, and lived with her till the birth of a daughter, soon after which he deserted her and came to this country where he turned dentist, and after rising in the world, married again. His former wife heard of him through a returned emigrant, and sent first their daughter, and afterwards came herself, to claim him. He was ordered by the magistrate to find bail to answer the charge against him.

The Governor of Tennessee has issued his proclamation calling the Legislature together on the first Monday in October next. Object not stated; probably to receive and dispose of the portion of the Federal revenue to be deposited with that State. The Legislature of Tennessee meets only once in two years, and would not in course meet next winter.

Extract of a letter from a gentleman at Richmond, (Missouri), to his friend in Philadelphia, dated July 8, 1836:

"Our town is all commotion to day. Indian hostilities have commenced on the frontier of our State, about sixty miles from this place. The Indians have killed two men, one of whom they actually cut to pieces. The Iowa is the only tribe that is yet known to be hostile, but there is no doubt in the minds of the people of this country but there will be a general rise among the Pottawatomies, Shawnees, and many other tribes. Our Governor has ordered out one thousand horsemen from the counties of Ray, Clark, Jackson, Fayette, and Carroll. The two hundred of our county are ready, and will take up the line of march in about two hours; they are volunteers, and well understand the use of the deadly rifle.

The Governors of the States of Kentucky and Louisiana have issued their Proclamations calling for Mounted Volunteers, in pursuance of the requisition from Gen. Gaines to support him in his projected march into the Province of Texas.—National Intelligencer.

Examination of Southern Harbours.—Under a resolution of the Senate passed on the 24th May last, requesting the Executive "to cause to be made the necessary examination and surveys of the several harbours south of the mouth of Chesapeake bay, and a report of the comparative facilities and advantages of the same for the establishment of a navy yard, to the next session of Congress," Commodore M. T. Woolsey, and Captains A. Claxton and E. R. Shubrick, have been appointed commissioners to make the necessary examinations. They will proceed to Boston, and take passage on board the new brig Porpoise, Lieutenant commandant W. Ramsay. This vessel will probably sail in the course of next week on this service.—Army & Navy Chronicle.

One man in a thousand.—The Bangor Advertiser states that on Saturday the stock of flour in that city was not large enough to meet the demand, and it rose at once from nine to thirteen dollars. One of our young merchants who had quite a number of barrels, refused to sell it out to speculators at the exorbitant price offered, but sold out by the single barrel to actual customers at the ordinary rates.

We learn that Mr. Cooper has another series of European sketches in press, in the course of which he is quite severe upon some of the Americans who sojourned in Paris during his residence in that capital.—U. S. Gaz.

Smokers' Strike.—The editor of the Kennebec Journal says that his attention was directed last week, to the movements of a number of French Canadians, who it seems had been employed to work on the dam, and had quit in a body, because they were not permitted to smoke their pipes when at work.

The Estate of Mr. Madison, after paying all his legacies, it is said, will amount to \$100,000 for his wife.

Port of Charleston.—Amount of duties from 1st April to 30th June, 1835, \$108,283 31; from 1st April to 30th June, 1836, \$167,480 09.—Courier.

The President has appointed Robert Mills, Esq., Architect of the Public Buildings.

A letter from an Alabama planter, dated Greenville (S. C.) July 24, says: "The crop of cotton in Alabama will be very short. There is almost a total loss in the upper Mississippi."

Another letter from Montgomery, (Ala.) dated the 21st, says I regret to say to you that our crops are in a bad way. I know of no plantation from which more than a half crop can be expected."

Fruitfulness.—Thus far we have pleasing indications that the present season will be one of great fruitfulness in Tennessee. The harvest of grain, so far as we have learned has been fully equal to all the reasonable expectations of the husbandman.

NEW MOVEMENT.—By a gentleman who came passenger in the steamboat Choctaw, which arrived from Natchitoches yesterday afternoon we learn that General Gaines, with the United States troops, has crossed the river Sabine and marched into Texas as far as Nacogdoches, at which place he had for the present fixed his headquarters. The intention of this move had not transpired.

Devon Stock.

THE editor of the Farmer and Gardener (Baltimore) can at all times supply orders for Devon Cattle. This breed is so distinguished for their easy keep and docility, the richness of the milk of the cows, and for the activity and sprightliness of the oxen, that they would be admirably suited to the purposes of southern agriculturists.

The happy adaptation of the Devonshire Oxen to the purposes of the farm, will be understood, when it is stated that 4 oxen have been known to plough 2 acres of ground in a day, and a team of them to trot at the rate of 6 miles an hour with an empty wagon.

Any person wishing to procure them can be supplied by addressing a letter, post paid, to the editor of the Farmer and Gardener. July 19
